Dear Gunnar:

My firm and I have finally completed a long legal ordeal. I must step forward on this and state however long and distasteful they may be to undergo, right in this case prevailed. It was ugly, it was not desired; but the redeeming quality of the situation was the tenacity and persistence of your legal professionals. Tim Flynn and his assistant Sharon stayed with the case keeping me posted, staying current, researching much difficult and complex law, and presenting my case to the very end.

The fees charged were fair and traceable, with numerous items and meetings not "on the clock." I was impressed with the timeliness of updates, responses, and as much as could be expected of a legal battle relieved and confident in Tim and his abilities to get the job done well.

Thank you for keeping great people around you to keep your firm a solid leap above the field.

Very truly yours,

Carolyn J. McFawn, President
